

Do not let the Bells to further monopolize. Competition requires competitors to be alive. If the FCC lifts the dominant classification from the Local Exchange Carriers (Bells), it will limit competition to a duopoly consisting of a bell and a cable company. Competition in the American Telecom marketplace will not be incentivized, and consumers will not benefit from innovative competition. ISPs and CLECs will not be able to continue operations, consumers have a reduction in choice. Please do not allow this to happen. Chairman Powell: Please do not sell out to BIG BUSINESS, at the expense of consumers, competition and the small businesses of AMERICA!
